

GINU.

GAS STATION BONER PILL INU

WHITEPAPER

READ IT, DONT READ IT, WHO GIVES A FUCK

THE HISTORY OF \$GINU

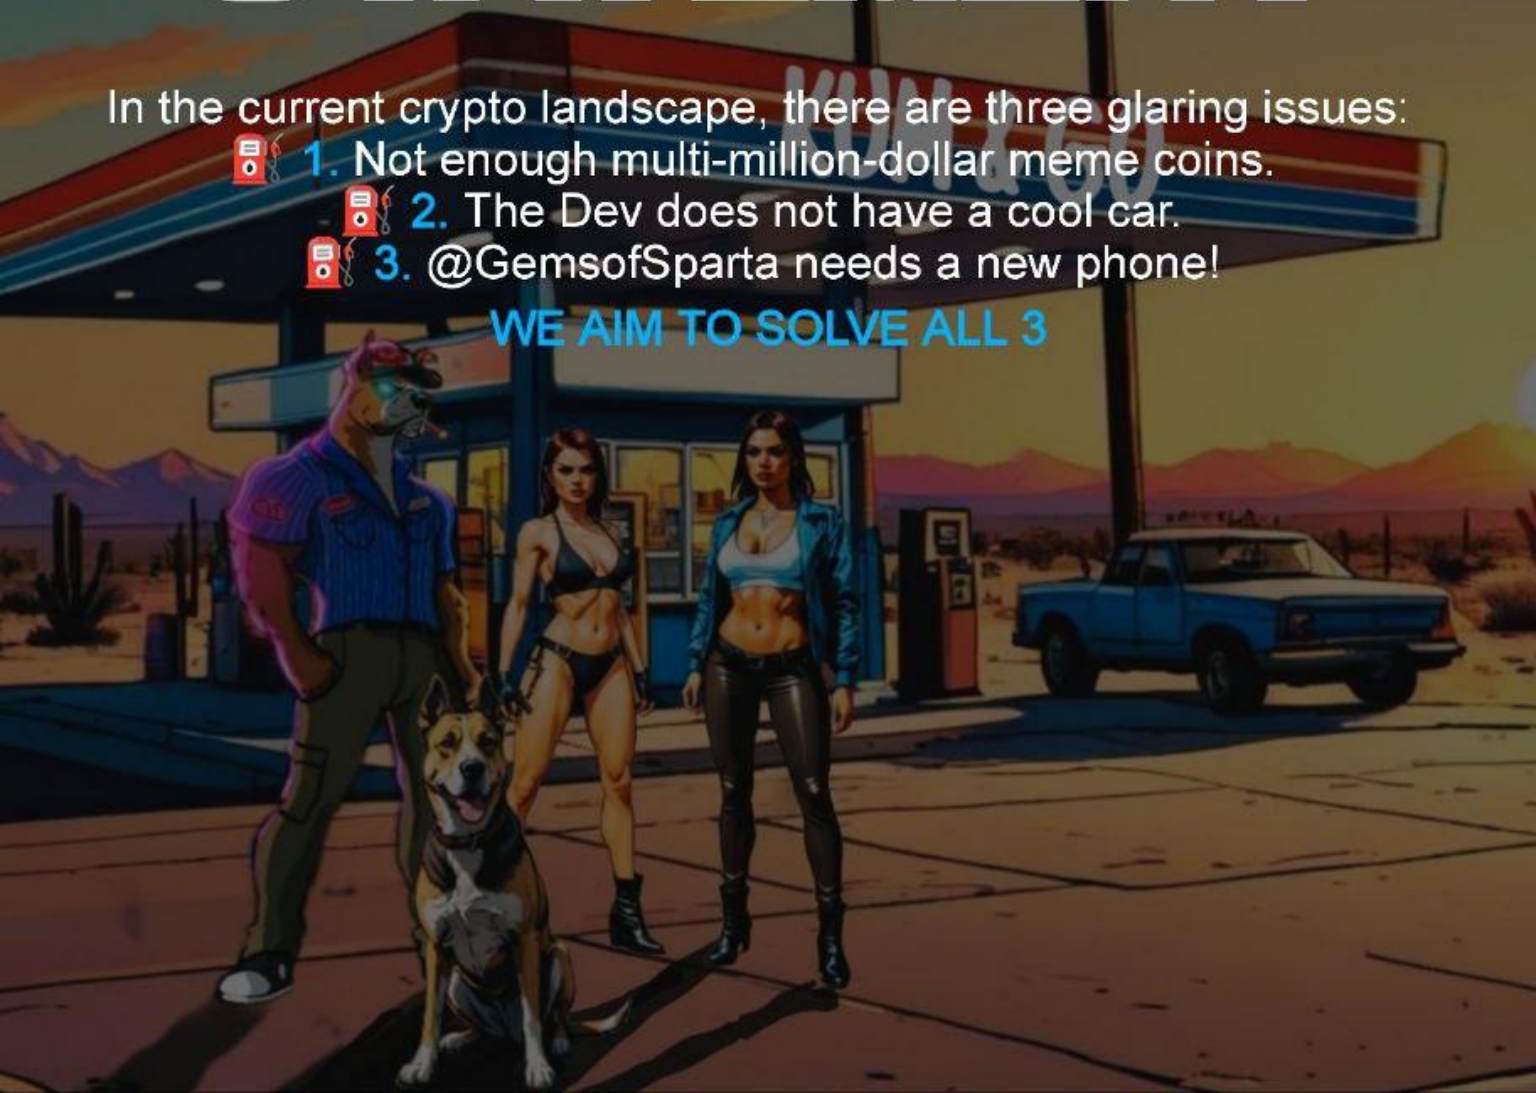

Meet \$GINU! Recycling old graphics because originality is too mainstream. Our sad Dev dreams of a shiny old car after last project flopped. Callers promised moonshots but dev just got Ramen. Join us to laugh, invest, fuck the callers and maybe help our heartbroken Dev trade pixels for horsepower!

PROBLEM STATEMENT

In the current crypto landscape, there are three glaring issues:

1. Not enough multi-million-dollar meme coins.
2. The Dev does not have a cool car.
3. @GemsofSparta needs a new phone!

WE AIM TO SOLVE ALL 3

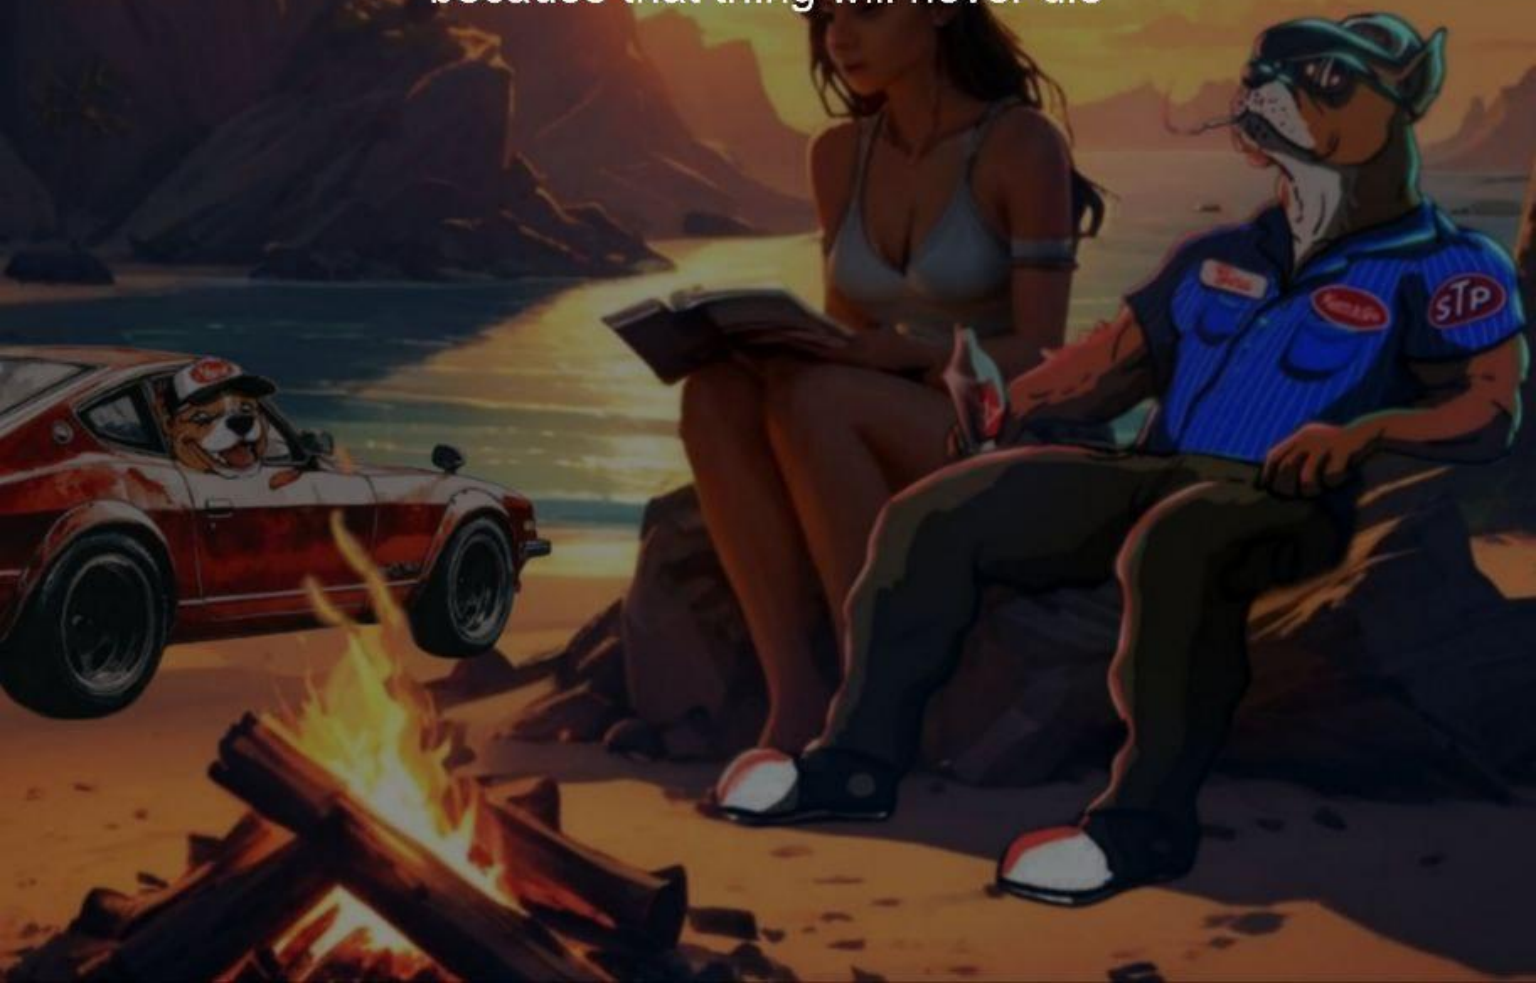

MISSION STATEMENT

We, the \$GINU community, have two crystal-clear missions:

Mission 1: Grow \$GINU's market cap to multi-million levels through sheer hype, reckless speculation, and unwavering belief in memes.

Mission 2: Use a portion of that sweet, sweet crypto wealth to buy our Dev a ridiculously fancy old car. '78 Datsun 280Z

Mission 3: Connor Needs that new phone ASAP! Nokia 3310 because that thing will never die

ROADMAP

Phase 1: Meme Domination

- Create an epic logo featuring a smug dog (GINU).
- Launch \$GINU on Chef.fun
- Telegram group with the most based community.

Phase 2: Shill Harder

- Make \$59K bond and get onto Uniswap.
- Get DexTools & DexSceener Updated.
- Start shilling on every possible social platform—Reddit, Instagram, TikTok, YouTube?
- Connor gets his phone! Maybe a refurbished one? We'll see.
- Partner with a few shady influencers who don't fully understand what they're promoting.

Phase 3: Pump to Millions

- Watch as the price begins to "moon" due to FOMO.
- Create merch shop to buy all things GINU!
- Start planning for our first centralized exchange listing (the more obscure the better).
- Make GINU "boner" pills... Yes, we're serious.

YEP ITS STILL THE FUCKING ROADMAP

Phase 4: Dev Gets a Car

- Once the market cap hits multi-million-dollar status, unlock the Dev Car Wallet.
- Livestream the purchase of the Dev's car ('78 Datsun 280Z).
- Host a victory AMA where the community celebrates the car reveal.

Phase 5: What Now?

- Continue hyping \$GINU with new memes and vague promises.
- Announce possible future collaborations with random projects.
- Expand our roadmap with even more ridiculous goals (but make them sound cool).
- Maybe buy Connor an actual brand new phone this time?

COMMUNITY INVOLVEMENT

\$GINU is for the people! We believe that by empowering the community to shill harder than any other project, we can collectively reach our goals. Together, we will create the most obnoxious meme army the crypto world has ever seen.

"Why be a Chad when you can be a GINU!"

RISKS AND DISCLAIMERS

- 📈 **Market Volatility:** \$GINU's price will fluctuate wildly, and we recommend not looking at your portfolio too often.
- 🚗 **Dev's Car Choice:** We can't guarantee that the car the Dev buys will satisfy everyone's tastes.
- 💰 **Not Financial Advice:** Obviously.

CONCLUSION

\$GINU isn't just a meme coin—it's a movement. A movement to achieve multi-million-dollar success and buy our beloved Dev a dream car. With your help, we can shill our way to the top, become the hottest meme coin in the game, and ensure that our Dev cruises around in style.

Join the \$GINU revolution today.
Together, we'll moon, meme, and
motor!

Disclaimer: \$GINU may or may not succeed, but the memes will live on forever.

**WHY THE FUCK ARE YOU
STILL READING THIS???**
**GO AND HAVE A
FUCKING BEER YOU
CHAD!!!**

**HAVE A GREAT
FUCKING DAY**
